

Memorandum for: DDI

DDI-3710-83

Bob:

The attached will give you some idea of the breadth and, I think, quality of our Summit support work over the past couple months. And this is only the material passing through EURA.

Much of the enclosed was compiled from individual contributions from the country economic analysts. STAT

With Briefing Books now generally closed, next week's work is likely to involve current intelligence and, most important, daily cables put together daily by EURA starting next Thursday and sent to our briefing team on the spot. According to preliminary arrangements, they will be meeting with Secretary Regan, Judge Clark, and Under Secretary Wallis between 0600 and 0730 Saturday through Monday.
